Wood Description

Doors we sell use finishes that protect and enhance the natural beauty of wood. Extra care is taken to assure a uniform finish. Because we are dedicated to customer satisfaction we feel that it is important to explain some of the characteristics of our finishes on hardwood. Like fingerprints, characteristics differences in color and grain are produced by nature in every tree. These variations are what create the beauty and interest found in wood. The variations in color, grain and texture will cause variations in the finish, even though identical finishing processes are applied. These variations are considered a natural characteristic of hardwood and are not a defect. We hope that you will appreciate and enjoy this beauty.

Limited Warranty

Manufacturer warrants all standard products for one year from date of shipment against warpage to these tolerances. Doors: Raised panel doors less than 22" in width and 48" in height are warranted against warpage of more than 1/8". Frames and plywood insert panel doors less than 22" in width and 48" in height are warranted against warpage of more than 1/4". Doors more than 22" in width and/or 48" in height are not warranted. Drawer fronts: Drawer fronts less than 8" in height and 30" in width are warranted against warpage of more than 1/4". Drawer fronts more than 8" in height (across the grain) or 30" in width (with the grain) are not warranted. Warranty: Warranty covers replacement of door and shipping only. Woodmont Doors assumes no responsibility for damage, other than warpage, incurred by the customer during storage, handling or finishing process. All claims for shortages or damage must be made within 10 days of receipt. Due to the natural characteristics of wood, metal, vinyl and stains, all items will not match exactly.

Example: Real wood items will not always exactly match the Real wood Self Adhesive Covering (called SAC or PSA for Pressure Sensitive Adhesive) All items are finished with manufactured to blend in color and textures. Display sample colors may vary slightly from actual product received.
